

TINKU REDHU

collection website

understand the matching of colors and font and taking my designing skills to next level.

Our Process

Project Overview

To design a website to buy or sold NFTs. My main goal for design that

beautiful website is improve my layout designing skills and to

Define Ideate

 Design a single page website to improve design skill. Add a new beautiful design to my collection.

I explore other NFTs website to take inspiration to design in more better way.

had very low knowledge(even now) about NFTs but I want to make that website because its one of

Research

Discover

- · I design this website I spent a lots of hours to gain more about NFTs because before this website I
- the trending topic and a lot of client want this.

To design this website I spend hours on trending UI Designs.

Sometime felling uncomfortable to get in NFTs.

User having not proper guidelines how to get into NFTs

Users not having knowledge about Terms and Conditions and falling into frauds.

Interface Overview

I used most popular font roboto. On dark purple background I like to use white color texts so

Buy NFTS

Contact

Discover and

Collect rare

The most secure marketplace for buying and

BUY NFTS

NFTs

BUY NFTS

selling unique crypto Assets.

Very less awareness about NFTs.

To find difficult to use in the process.

Business Challenges

- What user can get?
 - To get details about NFTs. To buy or sold NFTs.

To compare and take a analysis of Current market NFTs.

 To get knowledge about NFTs. To get knowledge about what is the things actually are NFTs

The Background of the website is set to dark purple type all of website which make a website very abradable and major two font are used. Outfit font I used for headings and for paragraphs

Featured on

- that I user can read clearly. Website theme is perfectly matched for the NFTs website. This website is designed in Layout grid of 12 Columns of 85px width in all these columns are aligned in center so that it easy to create in a regular width and height and aligned on correct place.

Analytics Sections

its desired section if he or she want. These part again with very short description with just short Heading and a short Paragraph section and a beautiful button with orange background. Also I added two beautiful vector 3d type colorful image which perfectly fits wit section. **TESTIMONIALS** Read What Others Have to Say

For NFTs website Analytics sections are the most required sections where users can compare

the current NFTs market. So I designed two Analytics section and a client can replace one with

Ending Section

GET STARTED KRYPTO Market **Join Our Letter** Contact krypto **Browse Nfts** Email Home SUBMIT **Email Address** LinkedIn **Buy Nfts** About Sell Nfts Instagram **Buy NFTS** Sell Nfts **Twitter**

At the ending part of this short but very beautiful website is Get started section with transparent

NFTs and the last part is Footer section with logo in its left side. After that it comes krypto where

he can access Home, About, Buy NFTs and sell nfts section. After that it comes market where a

person can browse nfts and in Contact Section a user can get website contact details.

glass background where a user can start his NFTs journey. From here He or She can buy the
